Cyber Resilience Forum

Governmental and Business Forum

10th of May 2023, "Carol I" Central University Library of Bucharest, Aula Hall

The European economy as a whole, and the energy sector in particular, undergo profound changes, its member states being involved in some very ambitious and challenging projects, (1) reaching climate neutrality by mid-century, (2) recovering and assuring resilience within multi-crisis environments and (3) re-engineering international relations and consolidating energy security by reshaping energy inter-dependencies, supply sources and transport routes.

These projects and the „new realities" they determine will significantly test the EU's leadership in the international arena, the coordination of 27 (plus the 4 EFTA countries) economies and energy markets towards common objectives, as well as the cohesion among the member states.

The common denominator is the digital transformation and the subsequent cybersecurity and resilience challenges.

Consequently, the Romanian Energy Center, under the patronage of the Euro-Atlantic Resilience Center, with the support of the Romanian Association for the Security of Information Systems, the Cyberspace Academy and the „Emblematic Romania" Association, propose a forward looking perspective of the roadmap towards strengthening the cybersecurity landscape, assuring an optimal and resilient transformation, by bringing together relevant stakeholders, providing lessons learned and an exchange of best practices and technology.

09:00 – 09:30 Guests arrival and welcome coffee

GOVERNMENTAL FORUM

09:30 – 10:30 Introductory remarks and Opening panel
Mr. Corneliu BODEA, President, Romanian Energy Center
Mr. Adrian DUȚĂ, Vice-President, Euro-Atlantic Resilience Center
Mr. George NICULESCU, President, Romanian Energy Regulatory Authority
Mr. Dan-Dragoș DRĂGAN, Secretary of State, Energy Ministry
Mr. Yugo NEUMORNI, President and co-founding member of CIO Council Romania, the Association of IT Directors in Romania

10:30 – 10:45 Panel change and setup

BUSINESS FORUM

10:45 – 12:00 Panel 1 Safety and security of critical energy infrastructures
Moderator: Mr. Frank HAJDINJAK, Vice-president, Romanian Energy Center

Speakers:
Mr. Genarro FIORENZA, Head of Cyber Security, Gridspertise (ONLINE)
Mr. Ondrej SAFAR, CEO, CEZ Romania
Mrs. Andreea IONIȚĂ, Chief Digital and Technology Officer, E.ON Romania
Mr. Bogdan TONCESCU, Member of the Executive Board, Transelectrica
Mr. Vlad-Ermil BODEA, Co-founder Bento
Mr. Elad SHAVIV, Business Development Director, Israel Electric Corporation (ONLINE)
Mr. Zahi LEVI, Business Development Director for cyber defense solutions, Elbit Systems

12:00 – 12:30 Coffee break

12:30 – 13:45 Panel 2 Innovations in cybersecurity
Moderator: Mrs. Gabriela MATEI, Cyber security expert, Euro-Atlantic Resilience Center

Speakers:
Mr. Adrian Victor VEVERA, CEO, National Institute for Research and Development in Informatics
Mr. Eduard DUMITRAȘCU, President, Romanian Association for Smart City
Mr. Andrei AVADANEI – CEO Bit-Sentinel
Mr. Cosmin ANGHEL, Chief Information Officer, SN Nuclearelectrica S.A. and Chair of Cynergy-ISAC
Mr. Mădălin STANIU, Managing Partner, Black Bullet

13:45 – 14:00 Panel change and setup

14:00 - 15:15 Panel 3 Education in cybersecurity
Moderator: Mrs. Irina PEPTENARU, Founder and CEO, Cyberspace Academy

Speakers:
Mr. Toma CÎMPEANU, CEO, Romanian Association for the Security of Information Systems - ANSSI
Mr. Dan CÎMPEAN – General Manager, Romanian National Cyber Security Directorate – DNSC
Mr. Felix STAICU – CEO Cyber Dacians, President of CYSCOE (ONLINE)
Mr. Marius ILĂU – Cyber PHD UCL – UK, London (ONLINE)
Mr. Răzvan RUGHINIȘ, Vice-Dean, Faculty of Automatic Control and Computer Science, Politehnica University of Bucharest

15:15 Closing of the Forum and networking lunch
